

Product Data And Specifications

Bronze Float Valve

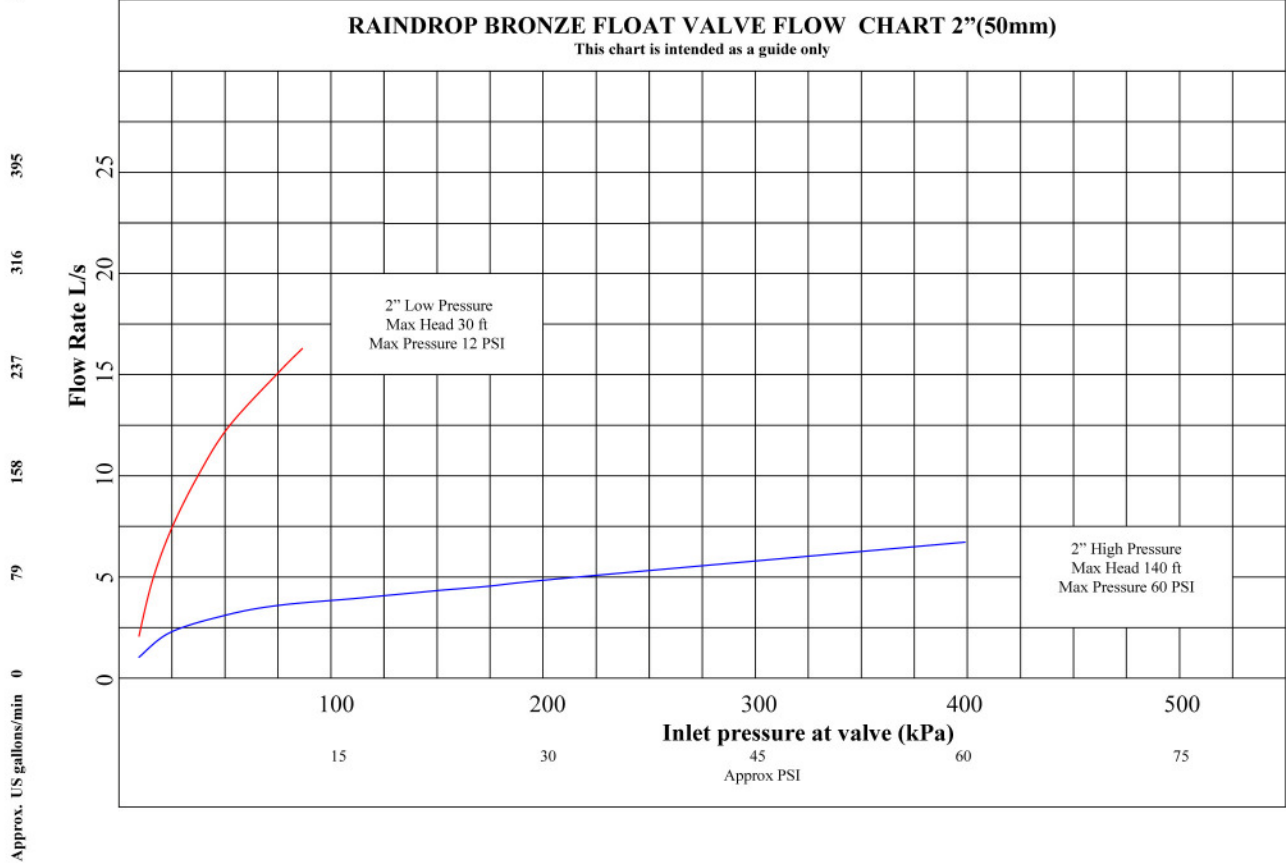

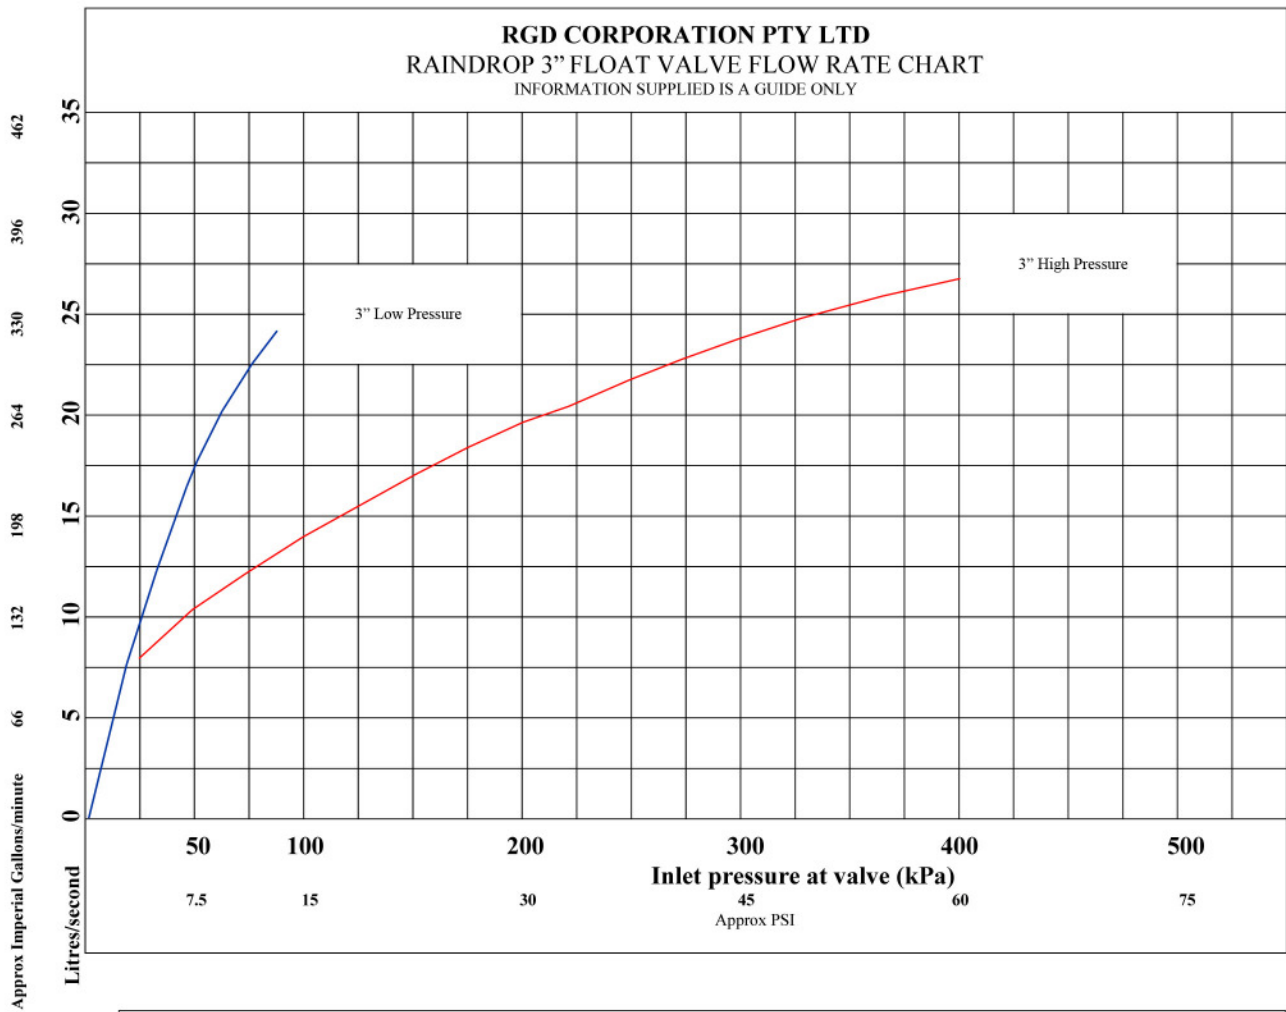

Manufactured from high quality bronze these are far superior to standard brass valves and are able to resist corrosion in severe water conditions found in the Agricultural and Mining Industries.

- Available in High Pressure and Low Pressure versions.
- Capable of handling pressures up to 90PSI (700Kpa) depending on the length of rod and size of float.
- Available in 25mm (1"), 32mm (1-¼"), 40mm (1-½"), 50mm (2") & 80mm (3")
- Features replaceable rubbers, stainless steel fasteners and a variety of accessories.
- Options include: Surface mount with polystyrene float or poly float or underwater installation with chain extension.

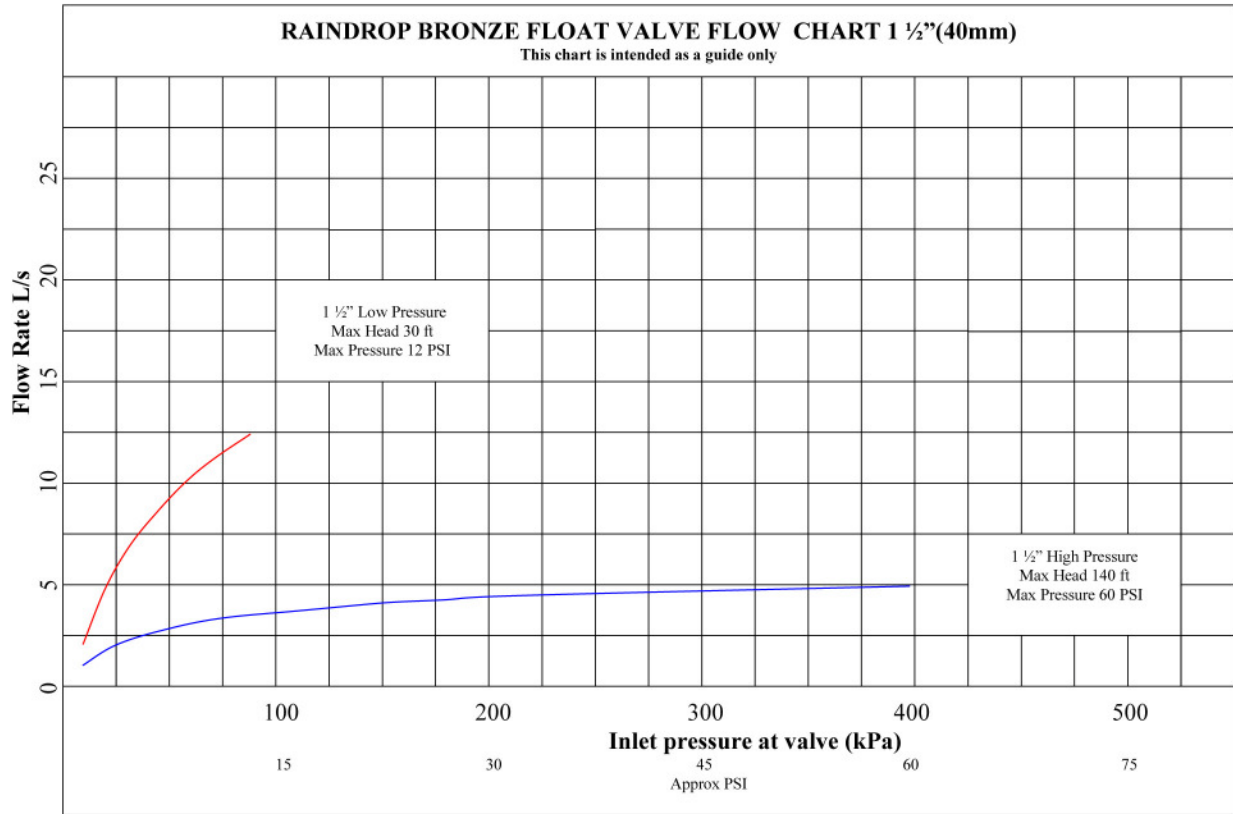

Product Models	Code
1" Float Valve, Complete With Stem, Bullet, And Pin	YBFV100
1-¼" Float Valve, Complete With Stem, Bullet, And Pin	YBFV125
1-½" Float Valve, Complete With Stem, Bullet, And Pin	YBFV150
2" Float Valve, Complete With Stem, Bullet, And Pin	YBFV200
3" Float Valve, Complete With Stem, Bullet, And Pin	YBFV300
1" Float Valve, Bare, Without Stem Or Bullet End	YBFVB100
1-¼" Float Valve, Bare, Without Stem Or Bullet End	YBFVB125
1-½" Float Valve, Bare, Without Stem Or Bullet End	YBFVB150
2" Float Valve, Bare, Without Stem Or Bullet End	YBFVB200
