bringing australian gardens to life

Since 1947 we've been an Australian owned company who pride ourselves on making products that are built to last and aim to help bring Australian gardens to life.

It is a new era for Neta, which is why we have redesigned all product packaging to suit contemporary Australian gardeners. Neta's new look is simplistic, making it easy for consumers to select products when in store.

Neta's garden watering and micro irrigation ranges have something for everyone. Whether your customers are weekend or professional gardeners they will find watering products to suit their needs.

To accompany Neta's New look we have also created the 'No Break Guarantee' check out page 4, you're sure to be impressed.

Introducing...
The Neta No Break Guarantee

Neta's garden watering products have always been built to last and as a commitment to our customers, Neta has introduced the No Break Guarantee. This guarantee is something that no other company offers and is a promise that our products are built to last, and if they don't Neta will happily replace them.

The Neta range has been designed with the Australian gardener in mind and is guaranteed for Australian conditions. The Neta No Break guarantees are clearly identified on each product pack and range from five to 30 years – depending on the individual product. As a general rule of thumb, Neta's plastic UV stabilised fittings, sprinklers, nozzles, guns and wands come with a guarantee of five years. All brass hose fittings come with a range of 20 years and the Neta hose range No Break guarantees vary from 6 to 30 years.

NETA NO BREAK GUARANTEE

Garden Watering

Garden Hose

What makes a neta hose stronger and more durable?

This starts right at the point of manufacture with the use of high quality raw materials. Its basic structure, which comprises an inner tube, a woven casing and an outer tube, also determines its quality. The thicker the tube, the stronger the hose will be and the more it will resist kinking. Strong polyester yarn, neatly and evenly braided, reinforces your neta hose, allowing it to withstand high water pressure. The outer layer has high UV resistance to withstand the harsh Australian sun.

Wall thickness - quality indicator

Colour - choices availabe

Outer layer - UV resistant

Layer adhesion - no blistering

Braiding - neat and even
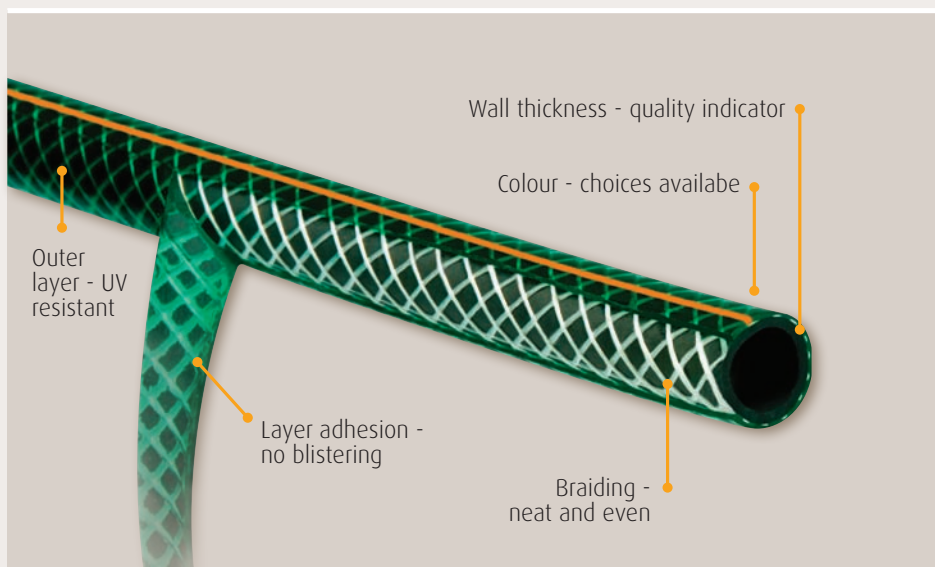

An Iconic Hose. Since the 1940's neta has been synonymous with **high quality garden products**. Neta hoses are manufactured and tested to an exacting standard; AS2620.1 There is a neta hose to suit each and every gardener and their garden. Engineered for improved **softness, flexibility** and **kink resistance**, all are **ultra lightweight**, making them a pleasure to use.

Platinum KAT | 30 Year Guarantee

Neta's new Platinum KAT hose is the latest and most innovative garden hose to hit the market. The Platinum KAT features six layers of lead free premium materials, featuring both a braided and knitted layer for extra strength and flexibility. The Platinum KAT is perfect for the modern Australian gardener with a sophisticated platinum grey matte finish, which emits style and allows for extra smooth handling.

The Platinum KAT is confidently backed by Neta's 30 year No Break Guarantee, designed to be durable and tough and created using UV stabilised materials to withstand harsh weather conditions, and accompanied by the highest six star kink resistance rating.
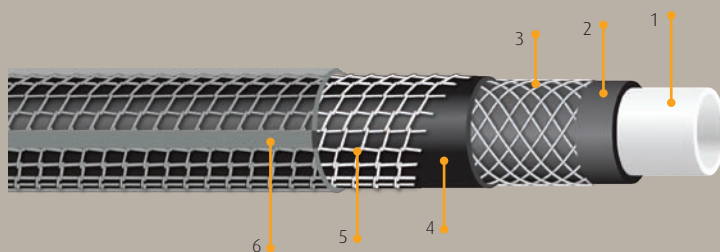

1. The inner layer is moulded using high quality white PVC.
2. Second layer of high quality flexible black PVC.
3. Reinforced **braided** polyester layer.
4. Middle Layer of high quality flexible black PVC.
5. Reinforced **knitted** polyester layer.
6. Soft touch metallised transparent grey layer with soft finish.

Clear Vinyl Tube Bulk - for cutting to length in store

General purpose, transparent tube, made from food grade material.

Suitable for a wide range of applications including:

- low pressure delivery
- syphon and drainage lines
- builders water level
- cable or chain protection
- fish tank tube
- water level sight tube
- protective covers

Bulk spools and coils provide a simple and convenient system for retailing "cut to length" CVT.

Handy metre marks and the tube diameter are printed every metre along the full length of the tube. The metre mark counts down to show how much tube is left on the spool.

Hose Fittings

Introducing...

The nēta high pressure anti-leak sealing system.

The Neta Long Claw Acetal grip ring

The *Long Claw* is our secret weapon against leaks. It's separate to the rest of the fitting, allowing it to really dig its claws in to give consumers a connection that won't break.

When combined with a Neta hose it gives the ultimate connection and protection against leaks – all part of our anti-leak sealing system. The Neta **Long Claw** grip ring is available in both plastic and brass hose connectors and joiners.

- Removable for easy installation
- Long claws for extra grip
- Made from super strength acetal.

Neta Garden hose fittings are **guaranteed for Australian conditions**. Available in 12mm or 18mm and manufactured using solid brass or UV stabilised plastic, **there is a Neta hose fitting for every watering application**. Neta's solid brass and UV stabilised hose fittings have **great features to benefit any gardener**.

Brass Fittings

Nothing rivals the elegance and durability of Neta brass fittings. Designed in Australia and manufactured to Neta's high standards – all fittings have quality leak proof connections and an easy grip. Brass is the perfect choice for those gardeners who want fittings that will last and are indestructible.

Along with the Neta *Long Claw*, Neta brass fittings also feature;

The Neta X-Stream Lock Ring - Extreme pressure anti-leak sealing system. It locks into place and is ideal for extreme pressure applications.

The Neta Multi-Fit Hose Clamp - Fits various hose sizes and with quality washers forms part of the anti-leak sealing system.

UV Stabilised Fittings

Many people don't appreciate what Neta plastic fittings are capable of, when it comes to lightweight high performance and durability; Neta plastic fittings have no match in the market.

Along with the *Long Claw* grip ring, Neta plastic fittings feature;

- An extra long tail that helps the grip ring get a strong attachment to the hose and prevent blow off

- Two extra wide teeth that help the click-on fittings to stay attached

- Made from a high gloss UV stabilised material.

Chrome Fittings
New to the neta range – chromed brass fittings. They have the same features and benefits as solid brass fittings, with a chrome finish for a more modern look.

Multi Outlet Taps

Neta's comprehensive range of multi outlet taps can convert any garden tap into two, three or four outlets. They are ideal for rainwater tanks and for use with home irrigation watering systems.

Neta's multi-outlet taps feature:

- Choice of solid brass, metal or plastic construction
- Built-in shut-off valves control flow to each outlet, with large double sided handles that are easy to turn even with gardening gloves on
- Winged inlet nut provides leverage for easy tightening
- 2-way tap has wider spacing between outlets to suit up to two tap timers
- Variety of outlet combinations for connecting to garden hose or a micro irrigation system.

Tip
Add a timer to a multi outlet tap, to make them fully automatic.

Nozzle Guns & Wands

With a little imagination and the combination of a Neta hose with a nozzle, gun or wand, gardeners can **create one of the most useful tools in the shed.** Neta makes a wide range of **high quality nozzles, guns & wands** that can transform the humble garden hose into an efficient device for cleaning the car, topping up the dog bowl, washing off after a hard day's work, watering those hard to reach pots or cleaning out the gutters.

All of Neta's Nozzles, Guns and Wands are offered with a five year 'No Break Guarantee', leaving gardeners with the reassurance of a quality product. Neta's range allows for the personal choice of a Nozzle, Gun or Wand and allows for important considerations, such as lifestyle, specific home and garden needs, comfort, style and colour. The list below explains the features of this range:

Solid Brass Nozzles

Neta's solid brass jumbo or jet nozzles are diverse and allow for efficient water use, no matter what the task. The solid brass nozzles are an easy grip hand held nozzle and are adjustable from 'OFF' to a strong jet simply by increasing water pressure. Attaching to a Neta garden hose is as simple as either screwing or clicking the nozzle into the hose connector.

UV Stabilised Nozzles

Neta's UV stabilised nozzles are available in both 12mm and 18mm. With an easy grip hand held nozzle, a simple twist can adjust the spray to suit any gardening needs. Attach by simply clicking on and start watering with the turn of the tap.

Front and Back Trigger Guns

Made from entirely solid metal for durability and toughness, Neta's range of front and back trigger guns are highly water efficient, with a water saving trigger action and auto shut off. All of Neta's guns are fitted with either a multi-purpose nozzle or spray head allowing gardeners to choose the best option to suit their watering needs. For extra comfort, the Neta range has been created with the addition of an ergonomic non-slip cushion grip, making them easier on weak or frail hands.

Wands

Neta's Wands are durable and tough, created using solid metal. Neta has one of the largest ranges of wands, with an ergonomic soft grip and comfortable front trigger to suit any gardener's needs. Neta offers four ideal watering devices including a multi function wand, shower wand, soft spray aluminium wand and a gutter wand. This diverse range allows gardeners to select based on the job at hand, whether it be watering seedlings with the soft spray aluminium wand, cleaning those hard to reach spots with the gutter wand or a variety of everyday jobs that the multi-function wand is useful for. Both the shower and multi-function wands come in varying sizes for easy and long reach.
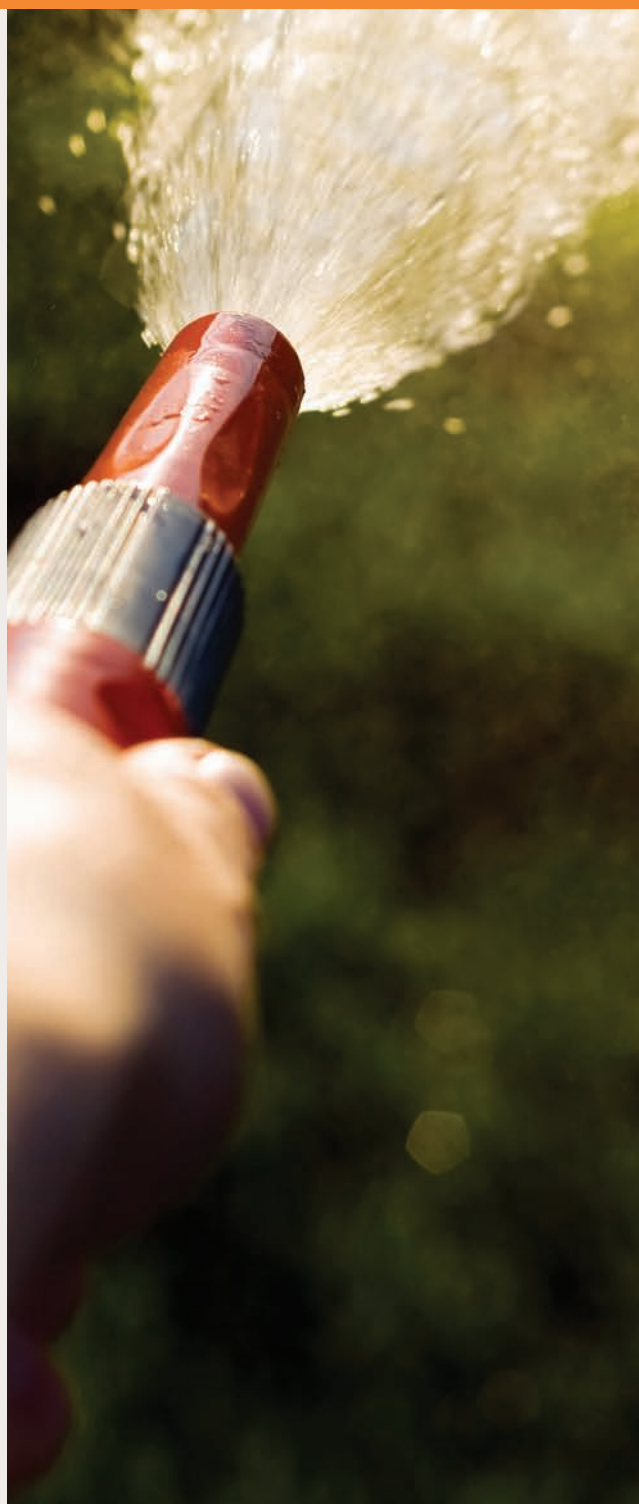

Brass Nozzles

BRASS JET NOZZLE

Solid brass nozzle producing a powerful jet of water. Clicks onto 12mm hose connectors.

Neta has an extensive range of **high performance sprinklers** to suit many different applications. Neta uses **UV stabilised plastics and tough, durable metals to ensure a long product life** and the ability to **withstand the harsh Australian conditions.** There is a Neta sprinkler for every garden application, all of which give gardeners a uniform coverage when watering.
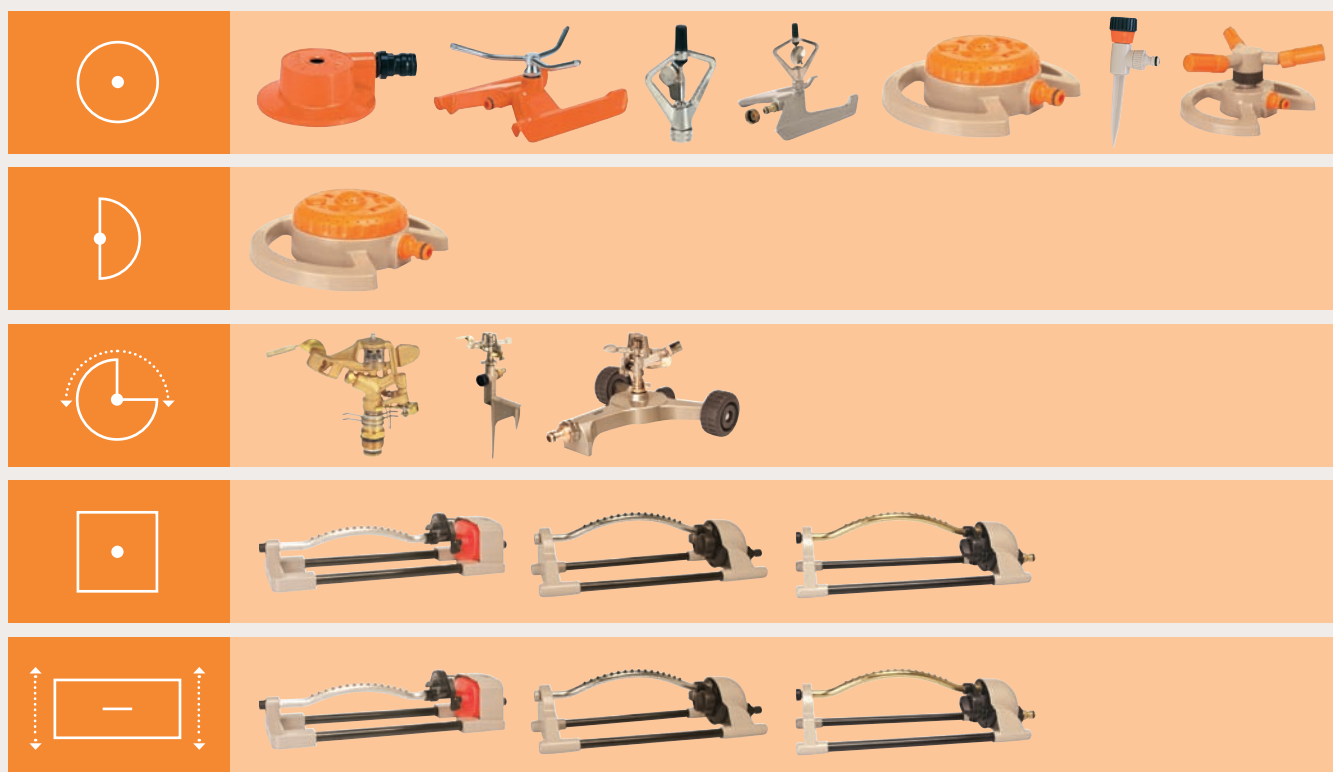

Sprinklers

Neta offers a variety of options for sprinkler purchasers:

- Metal or plastic
- A contemporary range of colours to suit any garden
- Built-in or separate base
- Base style – wheels, spike or high legs
- Diverse range of coverage areas
- Pattern – round, fan, adjustable round, rectangular or adjustable rectangular
- Adjustable pattern versus a fixed pattern

Check out the pattern selection guide below for easy selection of garden sprinklers.

Sprinklers

Sprinkler Heads

STRATUS BUTTERFLY SPRINKLER HEAD

Fast-rotating head provides excellent water distribution and no dry shadows. Covers circle of up to 11m diameter. ½" BSP female inlet thread.

Discharge at 175kPa is 16Lpm.

Timers & Water Control

Timers help to **manage the amount of water used in the garden**. Avoid overwatering by setting a timer to deliver the correct amount of water at the best time of day. Just 'set and forget' to **save time and money**.

Mechanical Tap Timers

Mechanical tap timers allow gardeners to make sure the tap will turn off at the right time, to avoid overwatering and use of water outside allocated times. Simply turn the knob to the number of minutes of watering required and the built in timer will turn the tap off when complete. No batteries required.

Electronic Tap Timers

Electronic tap timers have the added advantage of being able to set an automatic start time. Ideal for the busy gardener, watering times can be pre-set and left to automatically water when desired.

Both the manual and electronic tap timers have a bypass function that allows normal watering at any time.

Timers and Water Control

Mechanical Tap Timers

2 HOUR SOFT GRIP TAP TIMER

Features ergonomic, non-slip dial made of thermoplastic rubber (TPR). Set to water for up to 2 hours with the option of manual override function.

Fits ¾" and 1" tap outlets. Suits 12mm click-on.

Hose hangers and reels are great for **keeping hoses neat** and make them **easier to use.** Neta has a **range to suit every budget**, from simple hose hangers to heavy-duty reels and a trolley for transporting heavy hoses around large gardens. By storing a hose on a reel its **lifetime is extended** because it is kept out of the sun and safe from cars and general wear and tear. Careful storage also **reduces the risk of kinking and knotting** and will **keep garden hoses performing well** for many more years.

Hose Hangers & Reels

Hose Hangers

Hose hangers are the most basic storage system. They require a bit more effort than a reel, but are an excellent option for the budget-conscious home owner. Neta offers a range of hose hanger colours from the more traditional heritage green to the modern brushed aluminium.

Aluminium hose hangers can also be used for hanging ladders, tools or bicycles. Neta also has a range of plastic hose hangers that incorporate storage for sprinklers and guns.

Hose Reels and Trolleys

Hose reels and trolleys are the ultimate storage device. They are easy to use and keep the hose twist-free which prevents kinking. Neta's 12mm hose reels are made from light-weight, corrosion-free aluminium and UV stabilised plastics with the heavy duty hose reels made from corrosion resistant powder coated steel and stainless steel. It is best to mount a hose reel on the wall because it holds the reel still while reeling the hose in and out.

Hose trolleys allow for the movement of hose anywhere in the garden and allow for storage of hose when not in use. Neta reels and trolleys require some assembly and come with instructions for setup.

Hose Hangers
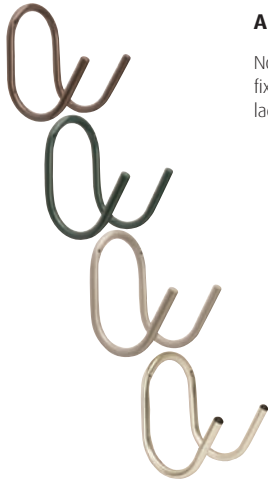

ALUMINIUM HOSE HANGERS

No-rust aluminium hanger which can be easily fixed to walls, fences or posts for tidy storage of ladders, hoses, outdoor chairs, bikes etc.

Using rainwater can be a real money saver. Neta's range of rainwater products allows **rainwater** to be **easily redirected to a garden or pool**, helping to **reduce reliance on mains water supply**. Neta has developed a stylish and practical range of rainwater products that are **simple to use and install**, helping **reduce water bills** and **operate within tight water restrictions**.

Rainwater

Rain gauges provide the ability to determine how much extra water a garden actually needs to supplement natural rainfall and avoid overwatering.

Looking at nature as a guide, 10mm of rainfall is considered good for the garden in most areas. Rainfall of 10mm is the same as 10 litres of water spread evenly over a square metre of garden.

The table below shows how much water to use on various areas to equal 10mm of rainfall.
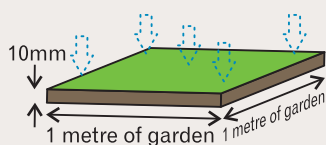

Area	1m²	2m²	5m²	10m²	20m²
Litres	10	20	50	100	200

A comprehensive range of hoses and adaptors are available to connect to existing rainwater piping.

Rain Gauges

PROFESSIONAL RAIN GAUGE

Small diameter inner cylinder for accuracy. Large outer cylinder for increased capacity. Measures up to 250mm of rainfall.

MEASURES UP TO 250MM OF RAINFALL

Neta Greywater products assist in the **reuse of water** from the washing machine or shower, and can help to **keep the garden green**, **save money** on water bills and **conserve our most valuable resource, water**.

Greywater

The Neta greywater product range allows the home owner to choose whether to send the greywater to the garden or sewer. The range includes:

Greywater Diverters

Diverters that fit into the drain pipe and can divert greywater between normal waste and the garden at the turn of a knob.

Adaptors

Adaptors that fit to the diverter outlet allowing the connection of three sizes of greywater hose.

Greywater hose

Greywater hose has a strong, lightweight corrugated construction, which allows the direction of greywater to different areas of the garden. Neta's hose range comes in two diameters and various lengths which allow for tailored use.

Healthy Tips

• Do not utilise greywater within the household.

• Consider switching to eco-friendly detergents.

• Divert back to sewer when using strong cleaning products or anything that may harm the environment.

Greywater for Gardens

Corrugated Diverter Hose

CORRUGATED DIVERTER HOSE

34mm hose fitted with 25mm cuff to suit most washing machine hoses or 25mm micro irrigation fittings. Large 34mm diameter increases flow, reduces back pressure on washing machine pump and prevents backup in the laundry tub.

34MM X 10M				
PACK	PRODUCT CODE	EAN CODE	ORDER QTY	CTN QTY
Disc	SF/034U00010	481603	5	5

Labelled	PF/CUFGT0250	483683	20	20

Greywater Diverters & Adaptors

PVC OUTLET GREYWATER DIVERTER

The greywater diverter redirects water from the shower or laundry to reuse in the garden, that would otherwise go to waste.

Can be converted from left to right-hand. Suits 50mm PVC drain pipes. Available with either 40mm or 50mm PVC outlet.

40MM				
PACK	PRODUCT CODE	EAN CODE	ORDER QTY	CTN QTY
Labelled	PF/GWD585310	585318	1	25

neta
bring your garden to life

Home
Irrigation

Neta Home Irrigation; the quiet achiever. A home irrigation system is the **best way to maximise water efficiency** and still **maintain a luxuriant garden**. A Neta home irrigation system helps home owners ensure that **each area of the garden gets the right amount of water.**

Home Irrigation

The time and money spent in the initial setup will be richly rewarded by the time and money saved by having an efficient system in place. A home irrigation system can be automated to further enhance its convenience. When programmed, it will quietly turn itself on and off whenever the garden needs water and allows gardeners to get on with other jobs.

The best complete home irrigation package

At Neta we are professionals when it comes to micro irrigation products, and as an advocate for efficient and effective watering we are continuously trying to improve our home irrigation product range, by:

- Perfecting the 'add-on' system – the home owner can start small (small garden, part garden, manual) and add to it as required.
- Individual components are low in cost, so the home owner can start small and improve their system over time.
- Neta has a variety of packaging options to suit the requirements of any store.

What sets Neta Irrigation apart?

- Neta can supply a full package for any size or style of home irrigation system.
- Neta provides design and planning tools to assist the home gardener with the right selection of irrigation products for their garden. This saves the retailer time and frustration.
- System components are manufactured from quality UV stabilised plastics. Base fittings are manufactured from Nylon which lasts longer and performs better than the softer polypropylene.

The Neta home irrigation product range at a glance

Product Group	Product Options	Product Features & Users
LDPE poly pipe supply lines	Garden-Pol	· General DIY home garden use
	Premium Poly	· For the discerning DIY home owner
Riser tube	LDPE	· General purpose tube
	PVC	· Flexible tube suited to tight corners
Garden drip	Pressure compensation	· Brown LDPE pipe with drippers every 30cm · Retail packaging contains helpful design information
	Non-pressure compensation	
Home irrigation fittings	The most comprehensive range of barbed and threaded, nuts and tails, joiners, tees, elbows and valves.	· Stores can supply whatever the customer needs
Micro sprays & sprinklers	Range of different fixed or adjustable spray patterns.	· Fixed and adjustable coverage · Colour coded for flow rate options
Drippers	Fixed output	· Fixed and adjustable outputs · Base options - barbed, threaded or complete with stake · Pressure compensation and non-pressure compensation dripper options
	Adjustable output	
	Barbed base	
	Threaded base	
	Complete with stake	
	Pressure compensating	
	Non-pressure compensating	
Stakes	Huge range of stake options	· Useful for the anchoring of irrigation pipe to garden beds · Connect and support riser tube to irrigation supply pipe · Support sprays, sprinklers and drippers away from the irrigation pipe and above foliage
Accessories	Filters	· Stores can tailor their offering to provide an extensive system that will suit their customers wants and needs.
	Pressure reducers	
	Tub outlets	
	Cable ties	

Home Irrigation Fittings

At Neta we have three distinctly different styles of packaging and merchandising for your in store micro irrigation fittings. Tailoring an irrigation system to individual customers is never easy, which is why Neta have chosen to provide a range of options for product displays. The different forms of packaging available are:

Labelled fittings

Labelled fittings are neta's individually barcoded and labelled micro irrigation products that make it simpler for the customer to select what and how much they need.

Prepack

Prepack fittings are neat and eye-catching; Neta's new orange packs make a colourful display and individual packs carry a useful selection guide and instructions for use.

Ready Retail

Ready retail fittings come individually labelled or pre-packed in a ready retail box. With the simple removal and relocation of the lid, the ready retail box can be placed on the shelf with products instantly ready to be purchased.

How Ready Retail works:

Neta's new Ready Retail packaging is perfect for in store merchandising. Complete with labelled or prepacked product, the boxes can be opened and put straight on the shelf - not only saving time but also creating a shelf display that is easier to keep tidy.

Some of the main benefits of ready retail include:

- Great brand blocking
- Easy to keep tidy
- Saves time merchandising
- Large range of products available
- All boxes feature a coloured label with a brief product description.

Mix & Match – helpful hints

Don't be restricted to one type of packaging, match the packaging to your market and your store's individual requirements. Some options that have been proven to be successful are:

- Present the small micro sprays in prepack and the larger fittings in labelled and ready retail to keep the benefits of barcode scanning at the check-out.
- Most home owners keep spare drippers and sprays and will appreciate a reusable clam shell. The clam shells can be hung on display panels or stood up in compartment trays.
- Keep bulk packs of the high moving fittings (ratchet clips, elbows etc.) for the professional irrigation installers on a higher shelf or out the back. They don't need to be stored with the main display.

Home Irrigation Pipe

Garden-Pol LDPE

Garden-Pol is ideally suited for domestic home irrigation systems.

PRODUCT SIZE	PRODUCT CODE	EAN CODE	ORDER QTY	CTN QTY
13mm x 25m	MI/GP0130025	420015	5	5

TUB OUTLETS

Suits a range of water reticulation applications in the hydroponics and nursery industries.

Drill a hole in the bottom or side of a tub and then use the tub outlet to provide a connection for poly pipe.

The screen "press fits" into the tub outlet to keep out hydroponic media.

The extension "press fits" into the tub outlet allowing the water to drain out of the tub at different levels.

Home Irrigation - Turf

Neta has a **diverse range of irrigation products specifically designed for turf and lawn care**. This range of sprinklers, fittings and valve boxes has been **ergonomically designed to be hidden and water efficient** at all times, while **keeping your lawn green** year round.

Neta's home irrigation turf range includes:

Spray head pop-up sprinklers

The simplest sprinklers available and suitable for small to medium lawns. The water is sprayed out in various patterns as depicted by the sprinkler selected. The nozzle can be rotated to align the pattern with the area being watered.

Shrub adaptors

More durable than typical micro sprays, risers and stakes. Used on professional landscape projects or in homes where extra resilience is required. Shrub adaptors utilise the same nozzles as the spray head pop-up sprinklers and are mounted in an adaptor that can be screwed onto a ½" threaded riser.

Impact pop-up sprinklers

Best suited to large lawns and in areas where noise is not so much of a problem. They are robust and can handle dirty water from on-site dams or creeks. A single jet of water rotates to cover a circular pattern and the arc of the sprinkler can be changed from full to part circle rotation.

Valve Boxes

Used for underground valves in water reticulation systems. All valve boxes are supplied with a lid to protect the contents inside and stop creepy crawlers getting in.

Quick Coupling Valves and Risers

Remove the need for unsightly taps and prevent vandalism or waste from taps being left on. Quick coupling valves are connected to a water source and buried with the top flush with the ground. Risers (keys) are connected to a hose and flow starts as soon as the riser is inserted into the quick coupling valve.
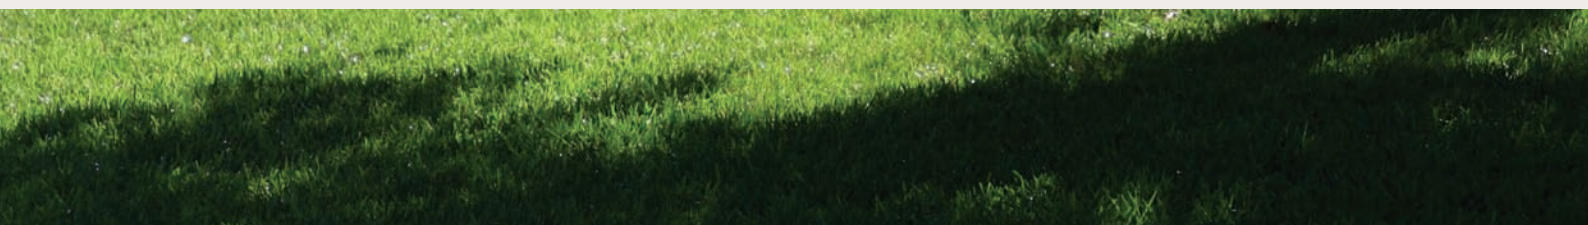

Sprinklers

NETA 50MM POP-UP SPRINKLERS

Pop-up spray head rises 50mm for lawn watering. Ideal for small lawn areas.

The ratchet mechanism allows the nozzle to be rotated to the desired position. Adjustable throw radius up to 3.5m.

Supplied with fixed patterns or with an adjustable arc to vary from 25° to 360°.

Inlet ½" BSP female.

PPI CORPORATION PTY LTD – TERMS AND CONDITIONS OF TRADE

1. INTRODUCTION

1.1 Application of these Terms and Conditions

The Customer agrees that prior to placing an order with the Supplier, the Customer has read and agreed to the terms and conditions as set out hereunder. For the purposes of this agreement, "Supplier" is PPI CORPORATION PTY LTD A.B.N. 79 010 656 005 and the "Customer" is the applicant named on the account with the Supplier or where no account exists then on the Work Authorisation provided by the Supplier to the Customer. In this Agreement "Goods" means goods and services.

2. QUOTE

2.1 Acceptance by the Customer — Where the Supplier has given the Customer a Quote:

(a) The Supplier need not supply the Customer until the Quote has been accepted by the Customer;

(b) The Customer shall accept the Quote by instructing (in writing) by way of an official purchase order making specific reference to the Supplier's Quote Number and issuing a copy of the purchase order to the Supplier.

(c) Acceptance by the Customer of the Quote will constitute acceptance by the Customer of these Terms and Conditions.

(d) Quotes are valid for thirty (30) days only, unless an extension has been authorised by the Supplier.

(e) The Supplier reserves the right to withdraw the Quote for whatever reason.In acceptance of the Quote, the Customer warrants that it has not relied on any representation by the Supplier and its employees and agents other than as supplied in writing in the Quote.

2.2 Supplier may Revise Quote — The Supplier may amend the Quote after a period of three (3) months from the date of the signed acceptance of the Work Authorisation to take into account any rise or fall in the cost of performing the Order and the Supplier shall notify the Customer of such amendment as soon as practicable thereafter. Upon the Supplier giving the Customer notification of such amendment the amended quote shall be deemed to be the Quote for the purposes of the Terms and Conditions.

2.3 Variations to Initial Quote — The Customer shall indemnify the Supplier from any additional cost incurred by the Supplier, should the Customer increase the scope of the goods and/or services to be provided by the Supplier.

2.4 Indemnity

(a) The Customer warrants, as a fundamental condition of this contract, that all drawings and specifications and other design information supplied by the Customer to the Supplier shall be accurate in all aspects.

(b) The Customer shall indemnify the Supplier from all costs incurred when Goods are manufactured exclusively to the Customer's specification. These Goods cannot be cancelled.

3. PRICES

3.1 Prices set out and referred to in the Reseller's pricelist are recommended prices only and there is no obligation for the Supplier to comply with these recommendations. All prices are exclusive of GST and subject to alteration without notice.

3.2 The price quoted includes packing where applicable. The cost of any special or export packing which is not standard will be added to the Customer's account.

3.3 Any increase in the cost of supplying the Goods which is beyond the control of the Supplier and which occurs between the date of ordering and delivery shall be to the Customer's account.

3.4 Unless otherwise stated in the Supplier's Work Authorisation, the supplier reserves the right to alter its list prices without notice and may vary the purchase price to reflect the addition in costs, taxes or duties incurred or to be incurred by the Supplier after that date of Work Authorisation.

3.5 All list prices are exclusive of GST and other government impost unless otherwise stated in writing and are subject to alteration without notice.

4. DELIVERY

4.1 Manufacture and delivery of Goods will be in accordance with the Customer's original order schedule. The Customer shall make all arrangements necessary to take delivery of the Goods consistent with the original delivery schedule. Should there be any delay or change to the original order schedule that is beyond the control of the supplier, then payment for such Goods will fall due subject to the Supplier's standard payment terms, irrespective of whether the Goods have been delivered. The customer may incur storage charges on a daily basis as per clause 4.3 below.

4.2 Where F.I.S prices are arranged, orders under $200.00 (two hundred dollars), before tax, will be supplied Freight-On to the Customer or alternatively F.I.S by a carrier nominated by the Supplier with the delivery charge of $25.00 (twenty five dollars).

4.3 Delivery of the Goods made to the Customer at the Supplier's address will be on an agreed date and failure by the Customer to uplift completed Goods from the Supplier's address on this agreed date may incur storage charges estimated on a daily basis calculated by the order value x the interest rate as advised in clause 5.3 x the number of days.

4.4 Delivery of Goods to a third party and/or site nominated by the Customer is deemed to be delivery to the Customer for the purpose of this agreement.

4.5 Suspension of Delivery — The Supplier may suspend delivery or cease manufacture if the Customer at any time fails to make payment in accordance with these terms & conditions and/or exceeds credit facilties as established by the Supplier.

4.6 The Supplier has allowed for two (2) hours of unloading time for deliveries. Any additional charges incurred by PPI over the two (2) hours allowed will be charged to the Customer. Any costs, losses or expenses incurred by the Supplier due to delays beyond the Supplier's control will be charged to the Customer. Current charges are available from the Supplier's office during normal business hours.

5. PAYMENT

5.1 Time for Payment — The Customer must upon receiving the Supplier's invoice, pay the Supplier the total amount set out in the invoice by the end of the month plus thirty (30) days.

5.2 Export Sales — Unless otherwise waived in writing by the Supplier, export sales are subjected to the provision by the Customer of an irrevocable letter of credit in favour of the Supplier.

5.3 Interest — The Supplier may charge interest at a rate of two per centum (2%) above the commercial lending rate of the Westpac Banking Corporation calculated on a daily basis on amounts not paid within the time specified in clause 5.1 and 5.5.

5.4 Deposit — The Supplier may require a deposit from the Customer in specific circumstances and if a deposit is so requested by the Supplier the Customer acknowledges the Supplier is under no obligation to undertake any works as requested by the Customer, until the deposit is received by the Supplier in full and when all details pertaining to contract are finalised. In the event of default as to payment owing to the Supplier on the part of the Customer, the Supplier shall be entitled to forfeit the deposit and claim any Supplier's profit or margin contemplated by or allowed for in the contract in addition to any remedy available to the Supplier at low or in equity.

5.5 Progress Payments — The Supplier may require progress payments from the Customer in specific circumstances and if so, the Supplier reserves the right to halt any further work until such time as the outstanding payment is forthcoming. In addition penalty interest (as specified in 5.3) may be charged.

5.6 Damages — The Customer must pay to the Supplier any costs, expenses or losses incurred by the Supplier as a result of the Customer's failure to pay to the Supplier all sums outstanding as owed by the Customer to the Supplier including without limiting the generality of the forgoing any debt collection and legal costs incurred in enforcing payment on a Solicitor and own Customer basis.

5.7 Cancellation — The Customer shall reimburse the Supplier for any costs, expenses or losses incurred by the Supplier should the Customer cancel the accepted Work Authorisation. The time for payment for such cancellation shall be seven (7) days from the Supplier's invoice.

6. RISK

The risk in the Goods shall pass to the Customer upon delivery and/or installation of the Goods to the Customer or its agent or to a third party nominated by the Customer.

7. RETENTION OF TITLE

7.1 Title — Notwithstanding the delivery of the Goods or their installation, title in any particular Goods shall remain with the Supplier regardless of whether the Goods are on-sold by the Customer until the Customer has paid and discharged any and all monies owing pursuant to any invoice issued by the Supplier for the Goods, including all applicable GST and other taxes, levies and duties. Any payment made by or on behalf of the Customer which is later avoided by the application of any Statutory Provisions shall be deemed not to discharge the Supplier's title in the Goods nor the Customer's indebtedness to the Supplier and, in such an event, the parties are to be restored to the rights which each respectively would have had if the payment had not been made.

7.2 Bailment — The Customer acknowledges that it is in possession of the Goods solely as Bailee until payment of all invoices for the Goods is made pursuant to clause 6.1 and until that time:

(a) The Customer is not entitled to sell the Goods but only in the ordinary course of business;

(b) The Customer must not encumber or otherwise charge the Goods;

(c) The Customer shall be fully responsible for any loss or damage to the Goods whatsoever and howsoever caused following delivery or installation of the Goods to the Customer.

7.3 Repossession — The Customer hereby irrevocably grants to the Supplier the right, at its sole discretion, to remove or repossess any Goods from the Customer and sell or dispose of them, and the Supplier shall not be liable to the Customer or any person claiming through the Customer and the Supplier shall be entitled to retain the proceeds of any Goods sold and apply same towards the Customer's indebtedness to the Supplier. If the Customer commits an act of bankruptcy, enters into any form of administration or liquidation, makes any composition or arrangement with its creditors, ceases to carry on business or breaches any fundamental clause of this agreement, then the Supplier may, without prejudice to any other remedies it may have, repossess any Goods delivered to the Customer on any account which has not been paid in accordance with the terms and conditions herein and commence proceedings to recover the balance of any monies owing the Supplier by the Customer.

8. WARRANTY

8.1 The warranty period for the Goods shall be as per the manufacturer's specifications. This is usually twelve (12) months from the date of purchase unless otherwise stipulated.

8.2 The Supplier will repair or replace any and all material parts found to be defective within the warranty period without charge, provided the Goods have been installed and used in accordance with the manufacturer's and/or Supplier's instructions. No allowance will be made on any Goods for labour, freight or consequential damages, only the cost of the defective Goods.

8.3 Work and/or service carried out on the Goods by anyone other than the Supplier and/or their nominated agents shall make the warranty null and void unless the Customer obtains prior approval from the Supplier before any remedial work is carried out.

8.4 The Supplier reserves the right to make null and void the warranty should the Goods be modified, altered, damaged or put to any undue stress other than in the way the Goods were designed to perform.

8.5 In respect of all claims the Supplier shall not be liable to compensate the Customer for any delay in either replacing or repairing the workmanship / Goods or in properly assessing the Customer's claim.

9. DESIGN UPDATES

The Supplier reserves the right to make changes and improvements to the Goods without incurring any obligations whatsoever to install or make changes and improvements to Goods already supplied.

10. INSPECTION ON DELIVERY

The Customer shall inspect the Goods on delivery and shall within seven (7) days of delivery notify the Supplier in writing of:

(a) any alleged shortage in quantity of Goods, incorrectly priced Goods or failure to comply with the description of Goods ordered and;

(b) any Goods found to be defective. The Customer shall afford the Supplier an opportunity to inspect such Goods within a reasonable time following delivery.

If the Customer shall fail to comply with these provisions the Goods shall be conclusively presumed to be in accordance with these terms and conditions.

11. RESTOCKING

11.1 Subject to prior approval from the Supplier a restocking charge of 15% for Fittings and 7.5% for Pipe will be applied on unused Goods sent back for credit or exchange. Freight of unused Goods shall be the Customer's responsibility.

11.2 Customised product or special orders are not returnable.

12. MERCHANDISING EQUIPMENT

he Supplier's merchandising equipment shall remain the Supplier's property at all times. The Customer shall indemnify the Supplier from any damage (normal wear and tear excluded) or loss to the merchandising equipment while on loan to the Customer.

13. LIABILITY

13.1 Non-excludable Rights — The parties acknowledge that, under applicable State and Commonwealth law, certain conditions and warranties may be implied in these Terms and Conditions and there are rights and remedies conferred on the Customer in relation to the provision of the Goods or of services which cannot be excluded, restricted or modified by the Agreement ("Non-excludable Rights").

13.2 Disclaimer of Liability — The Supplier disclaims all conditions and warranties expressed or implied, and all rights and remedies conferred on the Customer, by statute, the common law, equity, trade, custom or usage or otherwise and all those conditions and warranties and all those rights and remedies are excluded other than any Non-excludable Rights. To the extent permitted by law, the liability of the Supplier for a breach of a Non-Excludable Right is limited, at the Supplier's option, to the supplying of the Goods and/or any services again or payment of the cost of having the Goods and/or services supplied again.

13.3 Indirect Losses — Notwithstanding any other provision of these Terms and Conditions, the Supplier is in no circumstances whatever the cause) liable in contract, tort including without limitation, negligence or breach of statutory duty or otherwise to compensate the Customer for:

(a) any increased costs or expenses;

(b) any loss of profit, revenue, business, contracts or anticipated savings;

(c) any loss or expense resulting from a claim by a third party; or

(d) any special, indirect or consequential loss or damage of any nature whatsoever caused by the Supplier's failure to complete or delay in completing the Order or to deliver the Goods.

13.4 Force Majeure — The Supplier will have no liability to the Customer in relation to any loss, damage or expense caused by the Supplier's failure to complete the Order or to deliver the Goods as a result of fire, flood, tempest, earthquake, riot, civil disturbance, theft, crime, strike, lockout, breakdown, war, the inability of the Supplier's normal suppliers to supply necessary material or any other matter beyond the Supplier's control.

14. SECURITY AND CHARGE

The Customer hereby charges all property, both equitable and legal, present or future of the Customer in respect of any monies that may be owing by the Customer to the Supplier under these terms and conditions or otherwise and hereby authorises the Supplier or its solicitors to execute any consent form as its attorney for the purpose of registering a caveat over any real property assets of the Customer with the Australian Securities and Investments Commission.

15. PRIVACY

15.1 The Customer hereby authorises the Supplier to collect, retain, record, use and disclose personal information about the Customer, in accordance with the Privacy Act 1988, to persons and/or legal entities who are a Solicitor or any other professional consultant engaged by the Supplier, a Debt Collector, Credit Reference Organisation and/or any other individual or organisation which maintains credit references and/or default listings.

15.2 The Customer also authorises the Supplier to make enquiries with respect to the Customer's credit worthiness; to exchange information with other Credit Providers in respect to previous defaults of the Customer and to notify other Credit Providers of a default by the Customer.

16. GENERAL MATTERS

16.1 Severability — Any provision in these Terms and Conditions which is invalid or unenforceable in any jurisdiction must be read down for the purposes of that jurisdiction, if possible, so as to be valid and enforceable. If that provision cannot be read down then it is capable of being severed to the extent of the invalidity or unenforceability without affecting the remaining provisions of these Terms and Conditions or affecting the validity or enforceability of that provision in any other jurisdiction.

16.2 Governing Law and Jurisdiction — These Terms and Conditions are governed by the law in force in the State or Territory in which the Supplier's premises are located and the parties submit to the non-exclusive jurisdiction of the courts of that State or Territory and any courts which may hear appeals from those courts in respect of any proceedings in connection with these Terms and Conditions.
